GENERAL RECOMMENDATIONS:

1-Our visitors again are admiring those nice grafted GOLDEN PEANUTS. Bright yellow in color, they almost shine in the dark. Our own. They surely attract universal attention. "Almost good enough to eat" as one customer remarked. Don't forget to include one dozen in your order. They are offered at a bargain price of only \$ 1.00 per doz.

2-We have again those nice little grafts our customers liked so much past seasons. Well growing, healthy, they sell on sight. The best for the money. Try them. One dozen, all different, \$ 1.00.

3-We have now another "Peanut Cactus" hybrids, originated by well known experimenter A.V. Fric of Prague. There are 2 outstanding types: Pragochamaecereus # 1, a pale green form with plenty of little off-shoots, and a heavier form # 2. 3 of each, 50¢ for $\frac{1}{2}$ dozen.

4-We have also that fine collection of small Cacti, an endless array of varieties, easy to grow, 1" to 2" in size. This mixture among others contains rare dwarf Opuntias from High Andes of So. America. Priced 25¢ per dozen.

5-Similar mixture of very small succulents, good varieties, perfect little plants of many different types and colors, 18 ¢ per dozen.

6-We are sure you would be more than pleased with our new collection of hairy, pubescent and tomentose plants. Examples: Kleinia tomentosa, Kalanchoe beharensis, aliciae, pilosa, Echeveria pulvinata, setosa, Crassula trachysantha and others. Priced % 50¢ per dozen.
